

A rectangular metal plate with a scalloped edge, heavily rusted and showing signs of wear. A circular gauge or sensor is mounted on the left side of the plate. The plate is resting on a concrete surface. The gauge has some markings, but they are difficult to read. The plate has several curved protrusions around its perimeter.

A spherical metal object, possibly a buoy or a marker, with a chain attached to its base. The sphere is heavily rusted and has a white handle or cap on top. It is resting on a concrete surface. The chain is made of dark metal links.
